You should have received an email about Kid Reports. This is a communication tool between teachers and parents. You will have the opportunity to receive alerts, pictures, and videos of your children throughout the day. Then you will receive the complete daily report at the end of the day electronically, just like you do now!

Kid reports will help us better communicate with you information about your children in the manner you want.

Thank you to everyone that attended open house on Wednesday. We hope you got a lot of information from your child’s new teacher and look forward to a successful year! If you did not attend open house, there will be a folder of important documents that need to be returned to the office ASAP!

For families that are new and may have not heard, our center is moving into the building across the parking lot in February. We will keep everyone updated as we are in this process. If you have any questions, please see someone in Admin,
